## DESIGN WITH TRENDSTONE™ QUARTZ

Life revolves around the kitchen, so it's important that it's designed flawlessly.

Trendstone Quartz delivers you a product that is super high performing as a surface material. A wide range of sleek, contemporary colours can be found in our collections, with a new emphasis on marble-inspired white and greys.

# Low Silica Transition

Please note – there may be slight colour variation between High Silica and Low Silica colours.

Low Silica colours are generally coming through slightly whiter than the High Silica version.

As we transition from High Silica to Low Silica material, due to stock availability, job time frame, quantity and thickness required, actual material supplied may be High or Low Silica.
